Utilized in the SSC

Utilized in the SSM

Seal Kit SSK

Description

The new Schaefer Seal Kit SSK is designed to separate and feed loose piece seals or also known as weather packs. With this function the SSK can be used as a basis for most seal processing machines.

Multiple sensors guarantee high measures of reliability and precision during the process. A central connector provides for a quick and simple change over.

Range of Application

The SSK can be utilized in the Schaefer double seal machine SSC and also in the new Schaefer Seal Module SSM. In addition, the SSK is also fully compatible with the Pawo Seal Module SLU.
